

Simulation for Primary Care Advanced Care Practitioners (ACP's)

Objectives:

This one day course allows Primary Care Advanced Care/Nurse Practitioners to practice the management of acutely unwell patients in the simulated environment. It explores the interactions of clinical staff with their team and their environment.

Based on simulated scenarios, the course aims to demonstrate and improve non-technical skills such as leadership, communication, team working and decision making.

The course uses a high-fidelity adult manikin and audio-visual feedback to assist supportive debriefing and is open to any Advanced Care/Nurse Practitioners in the South Yorkshire locality with courses run at Montagu Clinical Simulation Centre, Mexborough. Places are allocated on a first-come, first-served basis so please book your place **now** to avoid disappointment.

To book a place on this course...

Please contact 01709 649106 or e-mail dbth.clinical.simulation@nhs.net

*Places will be allocated subject to availability.

Available course dates:

Thursday 13 December 2018

Thursday 11 April 2019

Thursday 14 February 2019

Thursday 20 June 2019
