

Tracheostomy Emergency Respiratory and Resuscitation Issues (TERRI) For YAS

Do you need more hands on experience when caring for adult patients with tracheostomies in situ?

The Montagu Clinical Simulation Centre has developed a new and exciting course for Health Care Professionals.

The one-day TERRI course runs with expert ENT faculty and is free of charge to all NHS employees within the Yorkshire and Humber region.

Upcoming course dates:

- 31/01/2019 – **5 Places available**
- 27/06/2019 – **11 Places Available**
- 24/10/2019 – **10 Places Available**

The course consists of workstations and simulated scenarios that will help to increase confidence and competence when troubleshooting problems that may occur with patients on the ward and in the community.

To book a place on this award winning course...

Please contact 01709 649106 or e-mail dbth.clinical.simulation@nhs.net

*Places will be allocated subject to availability.
